Prints and gifts.

❖ Viewing, selecting and ordering your event photographs...

...All of your photographs are available for purchasing as high quality prints in a variety of sizes. Friends and family can view, choose and order prints from the private gallery slideshow on our website, usually within a few days of your event. Our clients also select the prints included in their album from this slideshow gallery, or have the option of selecting them from a slideshow on a **returnable** DVD which will play on most home DVD players and computers.

Each photograph from your day will have a unique image number. This is all we need, together with payment, required size, quantity and a secure address to send the prints to. Print order forms can be downloaded and printed from our website or emailed/posted upon request. Your photographs are machine printed on superior quality archival mat photographic paper, using traditional wet paper and chemicals. They are prepared to order by our professional laboratory to our strict high standards.

Prints come without frames or mats and are un-mounted. We can supply a beautiful range of framed prints if required. Please visit the **Portrait** area of our website for prices and detailed information.

❖ Images on a CD...

...All of the images from your day can be supplied as high-resolution colour and contrast corrected jpeg images on a CD. The CD comes in a luxury folio case with presentation box and includes a complimentary 5 x 5 inch print. We realise that many people want to be able to email their special photos to family and friends or use them as screen savers at work/home, or may want to make their own digital prints using a home pc and *photo quality printer.

*We recommend that prints and re-prints be ordered from us directly so as to guarantee the best possible quality of your photographs. However, if you decide to make prints yourself at home, you should use a photo quality printer, and the manufacturers own inks with premium quality photo paper, to avoid being disappointed with the final results. (Nic Cleave Photography cannot be held responsible for the quality or longevity of home made prints and we can not provide technical support with printing or other issues.)
